

## Terry Bennett

Terry's direct involvement with TVT began in 2003 when he first became a member of our committee and then went on to undertake the duties of secretary for a number of years. The Trust benefited greatly from Terry's commitment and willingness to give his time freely whether selling raffle tickets, or in pursuit of fulfilling our major constitutional aims of conserving the character of the village and safeguarding & enhancing the countryside. It was, in particular, Terry's capacity for careful analysis, informed by his detailed understanding of relevant local political procedures and policies, that resulted in him extending the Trust's effectiveness. With Terry's guidance, for example, the Trust was able to express its views on controversial issues arising from certain planning & development proposals with clarity & authority. I believe, as a fellow member of the TVT, that it is certainly likely that our organisation and its influence on the quality of parish life would have amounted to less without Terry's contributions. He has set us standards that are both challenging and inspiring for the future.

Terry will be remembered & will be missed, and our sympathies go to Lillian and his family.

JW.
